

My wife, two children (in their late teens) and I have been committed listeners to K-LOVE radio for the past 7 years. The station has been a great source of inspiration and help to our family during some trying times, so much so that our family contributes monthly to support the station. Our children also each contribute \$5 out of their monthly allowance.

We find it disturbing to learn that there are plans to replace K-LOVE with an LPFM broadcaster providing other programming.

K-LOVE is a wholesome family orientated source of music, news and discussion. Should it be replaced it will be a significant setback to our communities access to safe, children and family friendly radio broadcasting 24x7. We believe it is in the public interest to keep K-LOVE on the air and as such request authorities to reconsider any move to replace the station.

Respectfully,

The Spencer family
